

# WATER DAMAGE PREVENTION CHECKLIST

**LOW  
EFFORT**

Locate your home's main water shut-off valve and learn how to turn it off

Inspect both your main water valve and shut-off valves for appliances

Check your water bill for unusually high usage

Test your home's water pressure

Install water and leak sensors near areas prone to leaks

Create a maintenance plan to upkeep

**MEDIUM  
EFFORT**

Inspect and upgrade pipes and appliance hoses

Check plumbing fixtures for leaks and other issues

Adjust your sprinkler schedule to avoid overwatering

Disconnect and drain water from outdoor fixtures during the winter

Check and clean gutters and downspouts

Update caulking and seals around your home

**HIGH  
EFFORT**

Call a professional about your yard if water naturally pools near your home

Inspect your roof, chimney, attic, and basement for signs of damage, leaks, or mold
